

POI DEL AGUILA PLA

PERSONAL DATA

PLACE AND DATE OF BIRTH: Barcelona, Catalonia, on 13 September 1990
HOME ADDRESS: Carl Malmstens väg 8, Lgh 1103, Solna, Sweden
MOBILE PHONE: +46 (0)7-294-29302
EMAIL: poldap@kth.se
WEBSITE: poldap.github.io

RESEARCH EXPERIENCE

2019 SEPT	Ph.D. Thesis
2014 SEPT	<i>Inverse problems in signal processing: Functional optimization, parameter estimation and machine learning</i> Division of Information Science and Engineering, School of Electrical Engineering and Computer Science, KTH Royal Institute of Technology, Stockholm, Sweden. Supervisor: Prof. Joakim Jaldén .
2014 SEPT	Research Engineer
2014 MAR	<i>Probability density estimation, a review of the state of the art.</i> Department of Signal Processing, School of Electrical Engineering, KTH Royal Institute of Technology, Stockholm, Sweden. Supervisor: Prof. Joakim Jaldén .
2014 MAR	Master's thesis
2013 AUG	<i>Normalization of remote sensing imagery for automatic information extraction</i> Department of Communication Theory, School of Electrical Engineering, KTH Royal Institute of Technology, Stockholm, Sweden. Supervisors and examiner: Dr. Felipe Calderero, Prof. Ferran Marqués and Prof. Markus Flierl .
2012 AUG	Undergraduate research
2012 APR	<i>Image analysis for sport events classification, a review of the state of the art.</i> Image Processing Group (GPI), Department of Signal Theory and Communications (TSC), <i>Escola Tècnica Superior d'Enginyeria de Telecomunicació de Barcelona, UPC BarcelonaTech</i> . Supervisor: Prof. Ferran Marqués .

UNIVERSITY EDUCATION

2014 MAR	<i>Civilingenjör, 5-year degree in Electrical Engineering</i>
2012 AUG	KTH Royal Institute of Technology , School of Electrical Engineering, Stockholm, Sweden. Heavily specialized in signal processing and its applications to communications and imaging. Double degree program.
2014 MAR	<i>Enginyer de Telecomunicació, 5-year degree in Telecommunications Engineering</i>
2008 SEP	UPC BarcelonaTech, Escola Tècnica Superior d'Enginyeria de Telecomunicació de Barcelona , Barcelona, Catalonia. Specialized in signal processing and its applications to pattern recognition and speech processing. Double degree program.

IMPACT CASE - PATENT AND PRODUCT

The technology developed in [4, 5], protected by [9], was implemented by Mabtech AB and Quamcom Research & Technology AB, resulting on a successful product for biomedical researchers by the name of Mabtech IRIS (<https://www.mabtech.com/iris>). References at Mabtech AB: Dr. Christian Smedman and Prof. Staffan Paulie.

GRANTS AND AWARDS

2019 MAR	Travel grants. Total amount ≈ 78 kSEK ≈ 8.4 k\$.
2017 SEP	Gållöstiftelsen study travel grant , Malme’s foundation travel grant through the EECS school at KTH, KTH Opportunities Fund project scholarship , Knut and Alice Wallenberg Jubilee appropriation travel grant , Åforsk Foundation travel grant , and Engineering Sciences 2017 call from The Royal Swedish Academy of Sciences (KVA, call ES2017-0011) project and travel grant .
2013 MAR	Exchange studies scholarships
2012 AUG	Erasmus and AGAUR ¹ exchange studies scholarships.
2009 JUN	Promotion’s top-10 award. Ranked 4 th .
2008 SEP	Receiver of the UPC BarcelonaTech award for first year students with top-10 grades in Telecommunications Engineering.

PARTICIPATION IN THE SCIENTIFIC COMMUNITY

Current 2019 MAR	Reviewer for Elsevier Signal Processing
Current 2015 AUG	Reviewer for the IEEE Transactions on Signal Processing
2019 APR	12-13 APR, Invited participant in the 2019 IEEE Signal Processing Society (SPS) Long Range Planning Meeting

¹ Catalan Agency for Management of University and Research Grants

	<p>Lecture presentation (9 APR) within the 2019 IEEE 16th International Symposium on Biomedical Imaging (ISBI 2019), titled SpotNet – Learned iterations for cell detection in image-based immunoassays, access at embs.papercept.net. Hilton Molino Stucky, Venice, Italy.</p>
2019 JAN	<p>7 JAN - 7 FEB, Research visit at Professor Jean-Luc Starck's group (CosmoStat). Department of Astrophysics, CEA Paris-Saclay, Paris, France</p> <p>14 AND 28 JAN, presentations at Cosmostat and Parietal, NeuroSpin, INRIA, respectively, titled <i>Cell detection by functional inverse diffusion and non-negative group sparsity - Biology, physics, math and engineering</i>, access at www.cosmostat.org and team.inria.fr/parietal.</p>
2018 JUL	<p>Attendance to the <i>Thirty-fifth International Conference on Machine Learning (ICML 2018)</i>. Stockholmsmässan, Stockholm, Sweden.</p>
2018 JUN	<p>Poster presentation within the <i>SIAM Conference on Imaging Science (SIAM-IS 2018)</i>, titled Source localization by spatially variant blind deconvolution, access at www.siam-is18.dm.unibo.it. University of Bologna, Bologna, Italy.</p>
2018 APR	<p>Poster presentation within the <i>IEEE International Conference on Acoustics, Speech and Signal Processing (ICASSP 2018)</i>, titled Convolutional group-sparse coding and source localization, access at sigport.org. Calgary Talus Convention Centre, Calgary, Alberta, Canada.</p> <p>9 - 13 APR, Research visit at Professor Stephen P. Boyd's group. 10 APR, Presentation to the group titled <i>Cell detection by functional inverse diffusion and non-negative group sparsity</i>. Information Systems Laboratory, Department of Electrical Engineering, Stanford University, Stanford, California, United States of America</p> <p>Poster presentation within the 2018 IEEE 15th International Symposium on Biomedical Imaging (ISBI 2018), titled Cell detection on image-based immunoassays. Omni Shoreham Hotel, Washington, D.C., United States of America.</p>
2017 NOV	<p>Lecture presentation within the workshop <i>Generative models, parameter learning, and sparsity (VMVW02)</i>, titled Cell detection by functional inverse diffusion and group sparsity, access at downloads.sms.cam.ac.uk. Isaac Newton Institute for Mathematical Sciences, University of Cambridge, Cambridge, United Kingdom. Within the programme <i>Variational methods and effective algorithms for imaging and vision</i>.</p>

TEACHING EXPERIENCE

Current	Supervision of Master's and Bachelor's thesis (see below)
2017 FEB	Main supervisor of two master's thesis, [1] and one ongoing. Designer of two bachelor's thesis projects, attracting 5 different groups of two students. Main supervision for 2 bachelor's thesis [2, 3], and co-supervisor for six, [4, 5, 6] and three ongoing.
2018 DEC	Teaching assistance in the course EQ2300: Digital Signal Processing
2014 SEP	Taught every year Nov - DEC by Prof. Joakim Jaldén and one to three assistants. Approximate numbers: 120 h of guidance of exercise sessions and lectures, 140 h of class preparation, 45 h of course and material development, 100 h of grading of projects and exams, and 20 h of private tutoring.

LANGUAGES

MOTHER TONGUE (C2+): Catalan and Spanish
PROFESSIONAL (C2): English
CONVERSATIONAL (B2): Swedish
BASIC (A1-A2): Italian and French (DELF A2, 2006 AUG)

OTHER SKILLS

Technical skills: Experienced in the administration of GPU-enabled Linux computational servers. Experienced in the maintenance of websites for academic groups. Professional in electronic design and measurement, network testing and simulation, measurement of digital communications systems, and antenna design and performance analysis.

Programming: C/C++, JAVA, R, PYTHON, TENSORFLOW, BASH, MATLAB, \LaTeX

Soft skills: Social and friendly collaborator. Accomplished and praised supervisor of student theses and teacher of exercise sessions. Very attentive to detail. Experienced in academia-industry collaborations.

INTERESTS AND ACTIVITIES

Linux, Free / Libre / Open-source software. Open-access research and open science. Philosophy and sociology.

Regular opera-goer, moderate cinephile, initiated tap-dancer and avid reader.

Hiking enthusiast and ex-capoeira practitioner.
